

Hello EMFC families and players, since 2010 our EMFC players and their families as well as the teams we host are training and playing their games at Lane Community College. We are extremely lucky to have this excellent relationship with LCC. We have learned more about the facilities and how to interact with other Lane Community College users. We share the track field with the Lane track athletes and we share the soccer field with the LCC women's and men's soccer team and at times with the Lane baseball team. All users need to follow the LCC rules and guidelines below. EMFC Coaches, parents, and players need to follow those rules and help monitor these rules, in particular when we have visiting teams here but also with our own EMFC families and players.

### **LCC TRAINING AND GAME SITES RULES:**

1. All parents are to park in paved parking lot above field. Use East LCC entrance. **Parents are not to drive down to field for any reason. Please take a look at the picture and do not park anywhere where there is a red marker. Even if you just wait there to pick up a player, please do use the regular parking spaces.**

2. Managers and Coaches, please do forward the parking picture with instructions to the opponent if you can. I will forward it to the OYSA schedulers to make sure visiting teams, coaches and players will adhere to those rules as well. Please make sure that

**on game days you let the visiting team know not to park in any of the marked areas. The LCC public safety personnel will ticket cars parked in those areas. Please help to get the visiting team in the correct areas and lead the way by parking in designated areas yourself.**

3. Players, parents and coaches are to **walk down to field on gravel path that is lined w/ red and yellow flagging.**
4. Chairs are not allowed on fields.
5. Players may not stay on field without coach after their practice session ends. Players are to be supervised at all times.
6. If a ball is kicked off turf and onto dirt, then players are to do their best to clean boots prior to re-entering turf.
7. No trash or gear is to be left on field. **Coaches and parents, please remind your players on a regular basis to pick up their trash and other belongings (water bottles, clothes, etc). Please pick up trash when you see it. There is a large container on the soccer field which functions as a Lost and Found. It is amazing how many clothes are left on the field. Coaches, if you find clothes left behind please put them in the container.**
8. Coaches, please do not warm up on the blue track. This is premium track. Please use the grass field for warm up. Again, please make sure to let the visiting team know as well. **Please do not use chewing gum, or food on the fields.**
9. Please do not move hurdles or other track gear during practices, etc.
10. **Dogs are not allowed on the LCC facilities.**
11. Please do make sure that players do not kick balls into the covered benches that have been re-installed.
12. Please follow the traffic signs in the parking lot and stop at the Stop signs.

It is very important for all of us to work together and help to monitor the facilities. I hope all coaches, managers, players and their families can work together and follow these guidelines.

I appreciate very much everyone's help.

All the best Jurgen
